Consultation Screening Therapy Feeding Infant Massage Tomatis

---

**Premature, High Risk,  
Developmental Monitoring.**

- Premature babies, low weight, complications during pregnancy, medical conditions, stay in NICU.
- Quarterly developmental surveillance screening.
- Home program design.
- Online or face-to-face.
- Prevention! Prevention! Prevention!
- Most of the success stories have one thing in common: the parents decided not to wait, they started stimulation immediately and did it daily at home.

**Pricing:** \$150.

**How to pay:**

Zelle and Paypal.
